

# CENTER CITY HALL RAIN GARDEN

This project at Center City Hall is an extension of the larger project in the neighborhood that was completed in 2015/2016. This is the last piece of the puzzle for stormwater runoff best management practices in this area of Center City. The City added extra native plants to the design to have an even bigger planting footprint. This watershed feeds South Center Lake.

Center City Staff will maintain this project to ensure the beauty and function of the rain garden.

## Partners:

Center City  
Chisago Lakes Lake  
Improvement District  
Chisago Soil and Water  
Conservation District

## Pollution Reduction:

TSS: 1 tons/year  
TP: 1.2 lbs./yr  
(P8 model)

## Targeted Water:

South Center Lake

## Completion Date:

August 2018
