

CHILDREN'S *VIRTUAL WATER FESTIVAL*
SEPTEMBER 23, 2021

CATEGORY – WATERSHEDS

1. DROP IN A BUCKET: THE NEED TO CONSERVE WATER – ENVIRONMENTAL CENTER

Environmental Center

<https://www.youtube.com/watch?v=Kj4xM3uSIMs>

***DESCRIPTION:**

In this lesson, you will:

Explore how much clean and accessible freshwater we have available on Earth. Made by Ross Robinson and The Environmental Center's Water Program Coordinator, Geneva Mayall.

***WEB LINK TO PRESENTATION:**

Click [here](#) to view the WATERSHEDS presentation.

<https://www.youtube.com/watch?v=Kj4xM3uSIMs>

4:05 minutes

***DIGGING DEEPER:**

Please click on the links below to view the additional WATERSHEDS activities and resources.

1. Instructions for setting up the demonstration shown in the Drop in a Bucket video.

You can download and print out the **A Drop in a Bucket Sheet** [here](#).

<https://sitesmedia.s3.amazonaws.com/creekconnections/files/2014/12/Drop-In-A-Bucket1.pdf>

2. This activity illustrates how the world's water is distributed. It is similar to the activity A Drop in a Bucket.

You can download and print out the **All the Water in the World Sheet** [here](#).
